RICCARDO CIRILLO

UX Designer – User Research, Prototyping & Usability Testing
MSc in Human-Computer Interaction and Design (EIT Digital)
Available in Madrid from February 2027 · EU citizen with Spanish NIE
riccardo.cirillo.work@gmail.com · +39 348 587 3059 · **Portfolio**

PROFILE

Master's student in Human-Computer Interaction and Design (EIT Digital double degree: Universidad Politécnica de Madrid and University of Trento). Hands-on experience across the user-centred design process: user research (interviews, contextual inquiry), prototyping in Figma and usability testing (SUS, UEQ). Background in social innovation and communication, with front-end skills in React and Angular. Seeking a UX internship in Madrid (February–July 2027) combined with my master's thesis.

EDUCATION

EIT Digital Master School – Human-Computer Interaction and Design (double degree)

University of Trento, Italy – MSc in Computer Science 09/2026 – 10/2027 (expected)
Relevant coursework: Multisensory Interactive Systems, Affective Computing, Advanced HCI, Prototyping Interactive Systems

Universidad Politécnica de Madrid, Spain – Master's in Digital Innovation 09/2025 – 07/2026
(Máster Universitario en Innovación Digital)
Relevant coursework: HCI Project, Evaluation of Interactive Systems, UX & Mobile Interaction, Accessible Computing, Entrepreneurship and Business Modelling

BA in Social Innovation, Communication and New Technologies – University of Turin, Italy
Thesis: UX design of the "Appetible" mobile app

PROJECTS

Nipotyno – Guided support for older adults using digital public services 2026
HCI Project, Universidad Politécnica de Madrid (team of 4)
- Led user research with 13 interviews and 5 observations; built personas and a task model across 5 digital service areas (healthcare booking, online payments).
- Designed 2 competing low-fidelity concepts in Figma, then iterated into a high-fidelity, dual-screen prototype.
- Ran usability tests: SUS 78.75 and "Good/Excellent" UEQ ratings; extended the concept into a business plan (Entrepreneurship and Business Modelling).

Levante – Edge-AI early detection of bacteria in bathing water 07/2026
EIT Digital Summer School on intelligent embedded systems, ISEN Méditerranée, France (team of 6)
- Researched EU bathing-water rules and monitoring in Italy, France and Spain (24–48-hour lab delay); co-created personas and user journeys for lab staff, field samplers, beach businesses and families.
- Designed the monitoring dashboard (risk map, sector alerts, sampling status) and concept renders of a solar-powered edge-AI sensing buoy, cutting confirmation time from ~48 to ~3 hours with on-site qPCR.
- Co-developed the business model (lab service fees, municipal dashboard subscription, data licensing) and presented the problem and personas in the final pitch.

Multisensory interactive prototype – Physical computing 2026
Multisensory Interactive Systems, University of Trento (group project)
- Built Arduino prototypes mapping force, bend and proximity sensors to RGB LED feedback (PWM).
- Implemented 1 kHz accelerometer sampling and low-pass filtering on a Teensy microcontroller to balance responsiveness and smoothness of the interaction.

SKILLS

User research: semi-structured interviews, contextual inquiry, observation, qualitative coding, personas, informed consent and GDPR
Design: Figma, wireframing, storyboarding, low- and high-fidelity prototyping
Evaluation: usability testing, SUS, UEQ, heuristic evaluation, A/B testing
Accessibility: WCAG 2.2, EN 301 549, Easy-to-Read
Development: HTML, CSS, JavaScript, TypeScript, React, Angular, Node.js, PHP, SQL
Physical prototyping: Arduino, Teensy, analog sensors, signal filtering (C/C++)
Innovation & business: business model and value proposition design, technology watch (UNE 166006), B2B go-to-market planning, EU research proposal writing
Other tools: Adobe Creative Suite, Google Analytics, IBM SPSS Modeler

LANGUAGES

Italian (native) · English (B2 – IELTS Academic 6.0) · Spanish (B2)

ADDITIONAL

- Part-time jobs while studying (customer service, retail, events), Turin, Italy, 2020 – 2025.
- Interests: baseball, design and product case studies.
